**MISSION CHOCOLATE SHOP IN CHANDLER IS TO OPEN WEDNESDAY**  
The finest store of its kind on the south side, the Mission Chocolate Shop of Chandler will open its doors to the public next Wednesday, June 9. The Mission Chocolate Shop occupies the old Chandler postoffice building and in every respect is considered an establishment of the highest class.  
The owners are L. C. Updike and Albert Anderson, both business men of northern Arizona. Mr. Updike will be in active charge of the Chandler store, while Mr. Anderson remains in the north directing the business affairs of the partners from his home at St. Johns.  
A marvelous transformation has been wrought in the interior of the old postoffice in the fitting up of the new store. The effect is old mission, a Spanish style of finish being used throughout. The fitting up of the establishment cost \$14,000, and those who have seen it declare it one of the most attractive places in the valley.  
A handsome marble soda fountain, the latest in affairs of this kind, stands to the left of the entrance. It is topped by a Spanish hood of mission and red roofing. On the left at the end of the fountain are steam tables for food and refrigerating plate glass case for pastries. Just off of this and in the rear center is a grape arbor with red and yellow leaves and full electrical effect. Under the arbor are six booths, all in mission and lighted by cluster brass lamps, which predominate in the lighting system.  
On the right side are plate glass showcases for cigars, candies, stationery and art goods imported from Italy. Italian marble is used for the fountain, while Spanish tiling is used for the baseboards, with blue gray wood trimmings. The effect is a symphony of color and harmony. The shop has its own gas plant with an up-to-date kitchen in the rear.  
The place will be lined with fans, with as perfect ventilation as is possible. The motto of the shop will be cleanliness and quality. Home cooking will be furnished in everything. The service is of silver and the equipment is the most sanitary procurable. The chairs are Spanish leather covered and, in fact, everything about the place is up to the minute.  
A musical entertainment will be given the opening night, and everybody is invited.

**SUES OVER DAMAGED PIANO**—Declaring that a piano belonging to him had been destroyed by the fire which recently damaged the St. Francis Cafe, A. J. Caldwell yesterday brought suit against M. J. Stamatis, asking for damages of \$200. Caldwell alleges that he rented the piano to Stamatis on October 30, 1919, to be used in the Southwest and was confronted with problems unlike those in any other section, and that the need for this work in the Salt River valley is very great. The problems in poultry keeping which are being studied at the Glendale station will go far towards placing poultry keeping in the Southwest on a sound basis and will tend to increase the production of poultry to a very great extent. The field for this work is a vast one and the information supplied from the government station will be of inestimable value to poultry raisers.

**BUY STAMPS AT MAIL BOX**  
(George Gaudin, the Scientific American)  
In the case of four out of every five correspondents, the usual mail box on the street corner is only one-half the problem of mailing a letter. The other half consists in hunting up a postoffice, drug store or other place where stamps can be obtained. For it is a fact that very few persons carry postage stamps about with them, so as to be always ready to mail any given piece of mail matter.
